A RUMMAGE SALE IS ANNOUNCED.

In Order To Raise Funds For Colored Kindergarten at Midway.

DELIGHTFUL MUSIC RENDERED.

* * *

The Palmetto Club for Thursday afternoon was in charge of the Philanthropic Department.

The following was delightfully given:

Mrs. Roger B. Mitchell charmed the audience with her beautiful voice and Mrs. Weber, Jr., with her violin, played right into their hearts.

Mr. Bourdet's selections on the cello were extra fine and much enjoyed.

The Lullaby song by Mrs. R. B. Mitchell, accompanied by Mr Bourdet and Mrs. Elwood was very charming. Miss Elwood is an exceptionally fine accompanist, and all were delighted with her playing.

Mrs. Henry Mitchell gave a good paper on "The Postal Savings Bank." She said while it was a well situated philanthropic, it will be a great help to the poor and ignorant. She told what other countries had done, and hoped soon to get our country doing even better.

Mrs. Laurence Thompson prepared a good paper on the department's work but owing to her recent illness, Mrs. Hope read it for her. She told how much they had done for the colored kindergarten; that at present they were out of funds, and urged more members to join the department.

It was announced that there would be a cottage sale sale the last part of this month for the benefit of the kindergarten. Any one wishing to donate could write notices with Mrs. Laurence Thompson or Mrs. H. A. Stillman.

Mrs. Downing invited all members to bring their friends to the Club Tea next Tuesday afternoon, from 3 to 5 o'clock The Hayes, with his violin, would assist in entertaining the ladies. Miss Thorpe announced that there would be a civic meeting Thursday evening at 7:30. All were invited to attend.

Mrs. R. A. Stillman and Miss Goodall were the hostesses of the afternoon. The tea was in charge of Mrs. Moller, Jr.

The excellent program was carried out:

IS IT TO BE A PATCH WORK?

* * *

The Florida East Coast people accidently contemplate some change at the passenger depot but just what change was not been given out. Workmen in the employ of the Flagler system are not noted for giving out information relative to the plans and purposes of this corporation.

It is current rumor that a new building is not contemplated at all but that a few minor changes are to be made in the interior construction of the depot and it will go at that. It seems that the changes contemplate the conversion of the present white waiting room into a colored waiting room. The present gal ored waiting room will be enlarged, decolorized, repainted and used for a white waiting room. A part of the present baggage room will be thrown in to enlarge the white waiting room.

The baggage room is to be enlarged at the expense of the express office, so it is said.

Now how do you like this arrangement?

It doesn't look like an artistic, roomy airy depot with toilets and up-to date accessories, such as the big railroads of the country are building nowadays.

The F. E. C. people, if they really have decided upon the changes as herewith set forth, will probably go ahead and make the change. But is it the part of wisdom? How long will such arrangements meet Daytona's requirements? Not very long.

The Daily News insists that the business at this point out the Daytona to better things and the F. E. C. should not patch up this make-shift.

Entertained Bachelor Friends.

At their cozy winter bungalow on Daytona avenue, Mr. and Mrs. John Sheely, of Corry, Pa., entertained a party of their bachelor friends with a most appetizing Florida supper last evening. The table was well home made viands, preserves, jellies chutney, and the mince pie like mother use to bake, etc., the handiwork of the hostess while the genial host provided imported refreshments and cigars. The dining hour was prolonged by the harmonious assordons and jests of the host and the evening was one of much merriment. The bachelors took particular notice of the happy home and it made a deep impression when compared with their boarding-house manner of existence.

Work has been begun on porch extensions and the addition of bath and sleeping rooms to the cottage, and while Mr. and Mrs. Sheely will return to their Corry home immediately after the races, next year they will come early and stay late enjoying their oasis and fruits.

[By United Press.]

WASHINGTON, March 12.—President Taft at today's Cabinet meeting submitted the first draft of a message to the extra session of Congress. It will impress the necessity of a thorough revision of the tariff, call attention to the condition of the treasury, war taxes and bond issue.

WILL SOON BE OVER.

* * *

The count of Thursday evening in the Bush & Safford Piano Contest showed the Daytona High School now to be past the 2,000,000 mark, a remarkable number of votes. The Eastern Stars made a gain on the Halifax Rifles, but at the same time the Elks gained over 30,000 on the Stars. Miss Mary Gille again passed Miss McCann, and one new candidate.

Outside of Daytona there was nothing of much interest, and the vote was light. Miss Ruby Spaulding passed the Seminole Congregational church.

The contest is fast drawing to a close, and March 31st, when it ends, will seem to them. A number of valuable duplicate bills will be given away, both in and outside of Daytona, and those in the contest had better make a flying finish and get some of the spoils.

From now on if people voting will be careful to vote right, and plain, the votes can better and more often, be counted.

HOLY WEEK FOR MARRIAGE.

[By United Press.]

BOSTON, Mass., March 12.—Russell Griswold Colt said today that his marriage to Ethel Barrymore would take place Holy Week in New York where they will spend a seven-day honeymoon, as Miss Barrymore will not be playing that week. He will leave it to the actress as to remaining on the stage.

Mrs. M. J. Garland Passes Away.

A message received in Daytona today conveys the intelligence of the death in New York, on Wednesday, of Mrs. J. M. Garland, for many years a resident of South Beach street.

Mrs. Garland left Daytona early in December to make their home in New York City, but the illness of that climate proved too severe and she passed away after a protracted illness.

Her husband preceded her to the grave some two years ago, leaving the widow and an only son and daughter, the former in California.

The remains will be brought to this city and buried beside that of her husband in Pinewood cemetery, Daytona Beach.

The First of The Big Aeroplanes Is In The City Preparing For Flight.

INTERVIEW WITH BUILDER BATES

* * *

As stated in yesterday's Daily News, the first of the flying machines to take part in the coming race events on the beach has arrived by express from Chicago, accompanied by the owner and operator, C. S. Bates, who designed and practically built this aeroplane himself and has made successful flights with it at Chicago, where he has resided for the past few years, going to that city from his home at Clear Lake, Iowa.

Mr. Bates, who is quite a young man, has worked out some very important features in the construction of his machine and attributes the fact that it can be operated with from one-fourth to one-half the horse-power of other aeroplanes to the greater efficiency of his propeller.

Another important feature of Mr. Bates' machine is that it is self-starting, that is it can be started in flight upon its own wheels without any laying of track or other preparation, all that is necessary being a comparatively level starting ground. This is a great point as Mr. Bates is enabled to alight and make successive flights from different localities, provided only the lay of the land is favorable.

The aeroplane which is now in the express office, knocked down and crated, will be put together, adjusted and tried out as soon as Mr. Bates has selected a location near the beach and constructed a shelter in which to house the machine. It will probably take two days or more to put it together in shape for trial.

The aeroplane when ready for flight is 28x28 feet at extreme points and about one foot in height. The motor is a two-cylinder gasoline engine of ten or twelve horsepower and like all the machine in the machine, except the wheels, is of Mr. Bates own design and construction.

Mr. Bates, who arrived at 1:45 p. m. yesterday and put up at The Desjardins, had no time in looking over the territory, W. H. Peters taking him over to the beach shortly after his arrival and he expresses himself as greatly impressed with the advantages it affords for long flights owing to its smooth surface and the great amount of clear space it provides.

HARPER DOWN AND OUT.

* * *

[By United Press.]

LOS ANGELES, Cal., March 12.—Reformers unrelated, having forced the resignation of Mayor A. C. Harper last night, and they announced today their intension to press the investigation of several other officials. Harper added nothing to his statement today but that he was "down and out." He says he had $200,000 when he took the office, but is now practically broke, having spent it all advancing the interests of the city.

It is believed that the main reason for Harper's retirement is a picture in the possession of the reformers snapped of the Mayor and his confreres on a trip to San Francisco.

It is believed that the reform candidate for Mayor, George W. Alexander, will succeed Harper.

Five Men Jump Overboard In Order To Save Lady From Drowning.

HERO MEDALS NEEDED IN BLOCKS

* * *

Thursday morning a happy party left Schmidt's Hotel in the fleet launch Ernestine, flags flying to the breeze, music floating out over the waves, the launch as happy and joyous as any that ever left the Schmidt wharf.

The party was made up of H. C. Boback, Julius Mack, John Kolb, H. A. Intemann, N. Neuberger, Mr. Kaufman, J. George Schwartzkoff, one lone lady, a guest of honor, and Conrad Stuhrenberg, Commodore.

They had a delightful run down to the Inlet and dropped anchor off the government lighthouse to enjoy the fresh breezes which were sweeping the Ernestine decks and to do a little fishing.

Having caught only one shrimp the gentlemen delegated to the lady member of the party who was cast it into the deep water, all expressing the wish she would land a fish of sufficient size for a meal for the party aboard.

But the best laid plans of men or mice gang aft agley. Hardly had the bait hit the water before there was a vigorous tug at the hook and in less time than it takes to tell it the lone lady fisherman, the epitome of all eyes, went overboard into the Halifax!

There was no time for a discussion of teh best means of rescue. A lady overboard in the swift, treacherous, shark-infested waters demanded instant action and the valor and chivalry of the men were given a test then and there. Acting upon the impulse an athletic member of the party plunged headlong after the lady and in rapid succession four other good swimmers followed suit and for a minute the water fairly churned as the quintet of rescuers succeeded the frightened lady.

Those on board had cut lines and a scrambling pole or a jiffy and all were brought safely aboard, no worse for the experience than the wetting they got.

On returning to the city the gentleman who first threw himself overboard and figured most conspicuously in the rescue became so chilly over the excitement that he dove the line and rope of the other rescuers and they accordingly put him in charge and had him to the row back on the prow deck where he was coached, urged, kicked, down and told him out on the deck, where he lay some time before he was released by the hot lady whom he rescued.

A FORTUNE OFFERED AS A BRIBE.

$60,000 Promised Daytonian If He Will Help Free Man From Prison.

FORTUNE KNOCKS AT YOUR DOOR

* * *

It used to be said that a "sucker" is born every minute. This particular brand of humanity became so much in evidence everywhere, on all occasions that it was quite apparent that either "suckers, were not dying or their birth rate had multiplied in an accelerated ratio. The latter theory is now accepted and the individual with a penchant for gold bricks is now thought to be born every second.

An incident occurred yesterday which inspires the editor to remark briefly along this line. A letter postmarked Madrid, Spain, purporting to come from a Russian fugitive who was once a noted banker but who absconded, leaving a deficit of over five millions rubles, was received by a Daytonian recently.

The fugitive wants help to get him out of prison and in return for this offers the third of his immense steal.

The writer cleverly imitates the handwriting a Russian might be expected to use, but he "falls down" in the construction of his sentences and otherwise. He begins "England" with a lowercase "e."

Accompanying the letter is a long clipping from an English newspaper (so he says) which gives a full account of the Russian's defalcation, flight, arrest, etc.

There are perhaps men in Daytona who have bought gold bricks, but if there is a person hereabouts sufficiently unsophisticated as to nibble at a thing so palpably fraudulent and far-fetched as this he should be sent to Chattahoochee at once or else a guardian appointed to take care of his interests.

With teleprots, lactivate rubber stock, fraction bonds, mineral lands, patent rights into a thousand and one other things guaranteeing big dividends in rapid succession there is little excuse for the "get-rich quick" artist to go across the ocean for a fortune. It is here knocking at every man's door. When you hear it knock at your front door, go and invite it in; don't jump out at a back window and run.

JULIA MARLOWE IN "THE GODDESS OF REASON."

Nothing that Miss Marlowe has done in years has impressed the theater goers in New York city so forcibly as "The Goddess of Reason." The play is based on episodes in the French revolution and is full of tragic situations. It is splendidly acted. In fact, several critics are on record as crediting Miss Marlowe with the best work of her artistic career in this play.

ERCURSION BOAT BURNED.

[By United Press.]

BALTIMORE, Md., March 12.—The steamer "Love Point," a big Chesapeake Bay excursion boat, burned to the water's edge today. The wharf and other property at Kent Island was destroyed. All the passengers had landed but the crew had a narrow escape.

HARPER DOWN AND OUT.

(By United Press.)

LOS ANGELES, Cal., March 12.—Reformers are elated, having forced the resignation of Mayor A. C. Harper last night, and they announced today their intention to press the investigation of several other officials. Harper added nothing to his statement today but that he was "down and out." He says he had $200,000 when he took the office, but is now practically broke, having spent it all advancing the interests of the city

It is believed that the main reason for Harper's retirement is a picture in the possession of the reformers snapped of the Mayor and his conferees on a trip to San Francisco.

It is believed that the reform candidate for Mayor, George W. Alexander, will succeed Harper.

J. C. LUMSDEN IS SENTENCED.

(By United Press.)

NEW YORK, March 12.—John C. Lumsden, the North Carolina inventor, who was convicted Wednesday of manslaughter in the first degree, for the murder of the broker, Harry B. Sudam, was sentenced today at not less than 18 years and not more than 19 years and six months. He will not appeal.

CARRIE IS DEPRESSED.

By United Press.

LIVERPOOL, March, 12—Carrie Nation sailed for the United States today. She said she felt much depressed over the hold liquor had on the big cities of England.

A party of nine, all ladies with one exception, friends of Wm. Hall of North Beach street, arrived the fore part of the week and will remain in the city for a few weeks They are from Shelby county, Kentucky.

Modern home on Halifax avenue, Silver Beach, at a rare bargain if sold this month. Bingham & Thompson.

IS RESCUED FROM THE HALIFAX.

Five Men Jump Overboard In Order To Save Lady From Drowning.

HERO MEDALS NEEDED IN BLOCKS

Thursday morning a happy party left Schmidt's Hotel in the fleet launch Ernestine, flags flying to the breezes, music floating out over the waves, the bunch as happy and joyous as any that ever left the Schmidt wharf.

The party was made up of H. C. Bohock, Julius Minck, John Kolle, H. A. Intermann, V. Neuberger, Mr. Kaufman, J. George Schwartzkoff, one lone lady, a guest of honor, and Conrad Stubenbord, Commodore.

They had a delightful run down to the Inlet and dropped anchor off the government lighthouse to enjoy the fresh breezes which were sweeping the Ernestine decks and to do a little fishing.

Having caught only one shrimp the gentlemen deferred to the lady member of the party who soon cast it into the deep water, all expressing the wish she would land a fish of sufficieat size for a meal for the party aboard.

But the best laid plans of men or mice gang aft aglee. Hardly had the bait hit the water before there was a vigorous tug at the hook and in less time than it takes to tell it the lone lady fisherman, the cynosure of all eyes, went overboard into the Halifax!

There was no time for a discussion of teh best means of rescue. A lady overboard in the swift, treacherous, shark-infested waters demanded instant action and the valor and chivalry of the men were given a test then and there. Acting upon the impulse an athletic member of the party plunged headlong after the lady and in rapid succession four other good swimmers followed suit and for a minute the water fairly churned as the quintet of rescuers surrounded the frightened lady.

Those on board had out lines and a sounding pole in a jiffy and all were brought safely aboard, no worse for the experience than the wetting they got

On returning to the city the gentleman who first threw himself overboard and figured most conspicuously in the rescue became so chesty over his achievement that he drew the fire and envy of the other rescuers and they accordingly put him in chains and laid him in the sun back on the poop deck where he was roasted brown. Arriving home they laid him out on the dock, where he lay some time before he was released by the fair lady whom he rescued.

A FORTUNE OFFERED AS A BRIBE.

$160,000 Promised Daytonian If He Will Help Free Man From Prison.

FORTUNE KNOCKS AT YOUR DOOR

It used to be said that a 'sucker" is born every minute. This particular brand of humanity became so much in evidence everywhere, on all occasions that it was quite apparent that either "suckers were not dying or their birth rate had multiplied in an eccelerated ratio. The latter theory is now accepted and the individual with a penchant for gold bricks is now thought to be born every second.

An incident occurred yesterday which inspires the editor to remark briefly along this line. A letter postmarked Madrid, Spain, purporting to come from a Russian fugitive who was once a noted banker but who absconded, leaving a deficit of over five million rubles, was received by a Daytonian recently.

The fugitive wants help to get him out of prison and in return for this offers the third of his immense steal.

The writer cleverly imitates the handwriting a Russian might be expected to use, but he "falls down" in the construction of his sentences and otherwise. He begins "England" with a lower-case "e."

Accompanying the letter is a long clipping from an English newspaper (so he says) which gives a full account of the Russian's defalcation, flight, arrest, etc.

There are perhaps men in Daytona who have bought gold bricks, but if there is a person hereabouts sufficiently unsophisticated as to nibble at a thing so palpably fraudulent and far-fetched as this he should be sent to Chattahoochee at once or else a guardian appointed to take care of his interests.

With teleposts, taxicabs, rubber stock, traction bonds, mineral lands, patent rights and a thousand and one other things guaranteeing big dividends in rapid succession there is little excuse for the "get-rich quick" artist to go across the ocean for a fortune; it is here knocking at every man's door. When you hear it knock at your front door, go and invite it in; don't jump out at a back window and run.

Gets Verdict For Big Money.

[By United Press.]

LONDON, March 12.—David Lloyd was today awarded a verdict of one thousand pounds in the libel suit brought against the People's Weekly, which made the charge that Lloyd had paid a large sum of money to keep his name out of the recent divorce trial. He will give the money to Welsh Charities.

JULIA MARLOWE IN "THE GODDESS OF REASON."

Nothing that Miss Marlowe has done in years has impressed the theater goers in New York city so forcibly as "The Goddess of Reason." The play is based on episodes in the French revolution and is full of tragic situations. It is splendidly acted. In fact, several critics are on record as crediting Miss Marlowe with the best work of her artistic career in this play.

Seabreeze News

SEABREEZE, March 12.—Mrs. Gamble received a telegram from Mr. Gamble Tuesday, dated Cairo, Mich., containing the cheering information that Mr. Hearit, Mrs. Gamble's father, was better.

A charter party of 15 or 20, organized by Messrs. Waterson and Coryell, boarded the Yankee Doodle Wednesday morning for Knox & Reed's grove, wherethey enjoyed a delightful day. Messrs. Waterson, Coryell and McHardy went prepared to remain for a few days' hunting and fishing. They expected to make Mr. Britt's home their headquarters.

A Wednesday afternoon tea given by Mrs. C. Coryell, Grandview avenue, was one of the delightful social events of the week.

Frank Bonnett arrived Sunday night on a visit to his parents and will remain until after the races.

Mr. and Mrs. Fagnell and Mr. and Mrs. Ferregge left this morning on a motoring trip to Orlando and Kissimmee, expecting to return Saturday afternoon.

There are several big sales in the real estate but not yet ready for publication. A deal of more than usual interest is the purchase of 100-ft. front lot of J. W. Ferregge, on Halifax avenue, by George L. Farrell. The deal was made direct. Mr. and Mrs. Farrell will consider plans for building right away with expectations of spending next winter in their home on the Halifax. Mr. and Mrs. Farrell are as pleasantly identified with our winter social life that it is a matter of general congratulation that they are home folks property owners in Seabreeze.

Miss Elma Hoge and sister, Miss Florence Hoge, of Wheeling, W. Va., arrived from Orlando yesterday and will spend several weeks here, guests at Princess Issena. Miss E. Hoge is one of our popular winter visitors.

Miss Margaret Gamble joined the Tomoka excursion party yesterday and had a pleasant day of it.

C. F. McHardy, of British Columbia, joined his family at the home of Mr. and Mrs. Waterson, of Halifax avenue. Mrs. McHardy is Mrs. Waterson's sister. Mr. McHardy is very enthusiastic over Seabreeze and surroundings.

The Human Temperature.

Put to the test of the thermometer, it appears that the normal temperature of the body is almost invariable, regardless of latitude or season. Putting the bulb of the thermometer under the tongue of an Eskimo at the frozen north or of a man under the blazing sun of the tropics, we find that in each case, the body being in a state of health, the temperature is about the same, the difference not amounting to a degree. We may say absolutely that the average normal temperature of a human being is about 98.5 degrees F., just as we may say that at sea level water boils at 212 degrees F.—New York American.

DAYTONA BEACH, March 12.—Prof. J. H. Selden closed his high school at Turkey Creek, February 26, and is now at home with his family. He spent some time visiting schools in the locality of his work before returning home. Mr. Selden has leased the Atlantic cottage, corner of Seabreeze and Ocean avenues, for three years. He takes possession on April 1.

Property sales continue good. J. C. Butler has sold another quarter of E. E. Austin's lot, on Valley street, Seabreeze, to Benj. Martindale. This gives Mr. Martindale the half lot.

Also J. M. Hutts, of New York, has purchased the E. M. Montague orange grove on South Ridgewood, Daytona. Consideration, $2,000. J. C. Butler made the deal.

Mrs. A. Holcomb came over from Palatka the first part of the week for a two days' visit at Surf Crest. She was accompanied by her three sisters, Miss Katherine Lowis, of Yale Center, Kas., Mrs. H. M. Bain, La Grange, Mo., and Mrs. E. M. Hogg, of Barnes City, Iowa. Coming from inland States to our beautiful coast town, they were perfectly delighted with everything. They invested largely in pictures to remind them of the three unrivaled towns by the seas and the river.

Mr. Sanders, of Lebanon, Ind., and R. S. Hook, of New Hampshire, are recent arrivals at Surf Crest.

The recent arrivals at the Daytona Beach Hotel are: H. Jeffs and wife, Chicago; C. B. Wagner Sandusky, Ohio; D. A. Hensley and daughter, Toledo, Ohio; J. M. Schrader and wife, West Hope, N. D.; Mr. and Mrs. F. M. Study, Attleboro Falls, Mass.

Among yesterday's arrivals at the Seaside Inn the following are noted: Mrs. A. E. Kinny, Duluth, Minn.; Mrs. Mrs. Wm. N. Gallager, Mrs. Nat Harris and maid, Versailles, Ky.

Mr. and Mrs. Gerrard and daughter, Miss Lou, left yesterday for their home at Des Moines, Iowa, after a winter spent on the beach. They formed many pleasant social ties while here, and we hope to have them with us again.

Mrs. Buckland and Miss Maude Yelvington joined Mr. Walker's party of friends from New Smyrna on a river trip yesterday.

A Surprise For the Thief.

Herr Singer, a well-to-do industrial tourist, frequently had watches picked from his pocket. At first he had recourse to all kinds of safety chains; then one morning he took no precaution whatever and quietly allowed himself to be robbed. At night, on returning from his business, he took up the evening paper; he uttered an exclamation of delight. A watch had exploded in a man's hands. The victim's hands were shattered and the left eye destroyed. The crafty banker had filled the watch case with dynamite, which exploded in the open then of winding.—London Telegraph.

Seabreeze News

SEABREEZE, March 12.—Mrs. Gamble received a telegram from Mr. Gamble Tuesday, dated Cairo, Mich., containing the cheering information that Mr. Heartt, Mrs. Gamble's father, was better.

A charter party of 15 or 20, organized by Messrs. Waterson and Coryell, boarded the Yankee Doodle Wednesday morning for Knox & Bend's grove, where they enjoyed a delightful day. Messrs. Waterson, Coryell and McHardy went prepared to remain for a few days' hunting and fishing. They expected to make Mr. Britt's home their headquarters

A Wednesday afternoon tea given by Mrs. C. Coryell, Grandview avenue, was one of the delightful social events of the week.

Frank Bianchi arrived Sunday night on a visit to his parents and will remain until after the races.

Mr. and Mrs. Farrell and Mr. and Mrs. Erregger left this morning on a motoring trip to Orlando and Kissimmee, expecting to return Saturday afternoon.

There are several big sales in the incubator but not yet ready for publication A deal of more than usual interest is the purchase of 100-ft. froot lot of J. W. Erregger, on Halifax avenue, by George L Farrell. The deal was made direct. Mr. and Mrs. Farrell will consider plans for building right away with expectations of spending next winter in their home on the Halifax. Mr. and Mrs Farrell are so pleasantly identified with our winter social life that it is a matter of general congratulation that they are bona fide property owners in Seabreeze

Miss Eliza Hoge and niece, Miss Florence Hoge, of Wheeling, W. Va., arrived from Orlando yesterday and will spend several weeks here, guests at Princess Issena. Miss E. Hoge is one of our popular winter visitors.

Miss Margaret Gamble joined the Tomoka excursion party yesterday and had a pleasant day of it.

C. F. McHardy, of British Columbia, joined his family at the home of Mr. and Mrs. Waterson, of Halifax avenue. Mrs. McHardy is Mrs. Waterson's sister Mr. McHardy is very enthusiastic over Seabreeze and surroundings

The Human Temperature.

Put to the test of the thermometer, it appears that the normal temperature of the body is almost invariable, regardless of latitude or season. Putting the bulb of the thermometer under the tongue of an Eskimo at the frozen north or of a man under the blazing sun of the tropics, we find that in each case, the body being in a state of health, the temperature is about the same, the difference not amounting to a degree. We may say absolutely that the average normal temperature of a human being is about 98.5 degrees F., just as we may say that at sea level water boils at 212 degrees F.—New York American.

Doings at Daytona Beach

DAYTONA BEACH, March 12.—Prof. J. H. Selden closed his high school at Turkey Creek, February 26, and is now at home with his family. He spent some time visiting schools in the locality of his work before returning home. Mr. Selden has leased the Ablas cottage, corner of Seabreeze and Ocean avenues, for three years. He takes possession on April 1.

Property sales continue good. J. C. Butler has sold another quarter of E. E. Austin's lot, on Valley street, Seabreeze, to Benj. Martindale. This gives Mr. Martindale the half lot.

Also J. M. Hults, of New York, has purchased the E M. Montague orange grove on South Ridgewood, Daytona. Consideration, $2,000. J. C. Butler made the deal.

Mrs. A Holcomb came over from Palatka the fore part of the week for a two days' visit at Surf Crest. She was accompanied by her three sisters, Miss Katherine Lewis, of Yale Center, Kas., Mrs. H. M. Ham, La Grange, Mo., and Mrs. E. M. Rugg, of Barnes City, Iowa. Coming from inland States to our beautiful coast town, they were perfectly delighted with everything. They invested largely in pictures to remind them of the three unrivaled towns by the seas and the river.

Mr. Sanders, of Lebanon, Ind., and R S. Hook, of New Hampshire, are recent arrivals at Surf Crest.

The recent arrivals at the Daytona Beach Hotel are: H. Jeffs and wife, Chicago; C. R. Wagner Sandusky, Ohio; D. A. Hensley and daughter, Toledo, Ohio; J. M. Schræder and wife, West Hope, N. D.; Mr. and Mrs. F. M Study. Attleboro Falls, Mass.

Among yesterday's arrivals at the Seaside Inn the following are noted: Mrs. A. E. Kirny, Duluth, Minn.; Mrs. Mrs. Wm. N. Gallager, Mrs Nat Harris and maid, Versailes, Ky.

Mr. and Mrs. Fitzgerald and daughter, Miss Lou, left yesterday for their home at Des Moines, Iowa, after a winter spent on the beach. They formed many pleasant social ties while here, and we hope to have them with us again.

Mrs. Buckland and Miss Mattie Yelvington joined Mr. Walker's party of friends from New Smyrna on a river trip yesterday.

A Surprise For the Thief.

Herr Hager, a rich and influential banker, frequently had watches picked from his pocket. At first he had recourse to all kinds of safety chains; then one morning he took no precaution whatever and quietly allowed himself to be robbed. At night, on returning from his business, he took up the evening paper; he uttered an exclamation of delight. A watch had exploded in a man's hands. The victim's hands were shattered and the left eye destroyed. The crafty banker had filled the watch case with dynamite, which exploded in the operation of winding.—London Telegraph.

The Modern Seven Wonders

Daytona's Incomparable Ocean Beach.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphalt-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and cool and snowy-winged sea birds, which sit about as if for the sport of bobbing upon her waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid an l liquid ready for a cruise upon her beautiful surface Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies, and the wide-spreading branches of the heavy-trunked live-oaks extend their giant arms across this magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with silken draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the artistic cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the little finishing touches which have brought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage, the entire city becomes a great park

And as for pavements, pavements that look and act like granite,—where else between the eastern and western coast are so many miles in proportion to inhabitants? Till some unheard-of piner reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.

Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "squirrels and flowers, birds and fruits" will send a thrill that is reflected in distended pupils and prickled ears.

For every visitor with a spare "goober" there is a bunny ready to come out and accept your gift. He will sit bolt upright and gaze into the nest, casting furtive, many glances at you meanwhile.

Flowers! Usually fresh and blooming the year 'round. In one yard roses of variegated hues predominate, another has a pentehaut for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona prides the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes.

The Fastest Autos And The Finest Out.

Here is where world's records for speed are broken with every recurring season. Autos the biggest, the fastest and the finest are on daily parade and the big show is as free as the pure artesian water from the thousand flowing wells. It is a continuous show with constantly shifting scene. You will probably catch the spirit and when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down in your wallet only for coin for the auto and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

"Every disease almost has its peculiar odor," said a doctor. "This odor below us presently in diagnosis.

"Gout imparts to the skin a smell precisely like whey. Diabetes causes a sweet, honey-like smell. Jaundice occasions a smell of musk. Smallpox has a very strong and hideous smell. It is like burning bones. Measles has a small as of fresh plucked feathers.

"The fevers have the most diabolical odors. The odor of typhus is ammoniacal: that of intermittent is like fresh brown bread hot from the oven; that of typhus is musty, recalling to the mind old, damp cellars; that of yellow fever is like the washings of a dirty gun barrel.

"So, you see, to speak of a doctor scenting our disease is not to use a mere figure of speech."

Mutton Birds.

During six weeks every autumn the 400 inhabitants of the Australian Fortescue Islands make enough money to support themselves in idleness the rest of the year. They do this by catching the very fat young "mutton birds," which are hatched there in such numbers that the heads on which they migrate extend for miles. They furnish food and oil, which is used for lubricating purposes and also as a substitute for cod liver oil.

Making Sure.

Country Cousin—Are you sure I am in the right train? Town Relative (who has had about enough of it)—Well, I have asked seventeen porters and thirty-two passengers, and they all say "Yes," so I think you'd better risk it.—London Telegraph.

If thou continuest to take delight in idle argumentation thou mayest be qualified to combat with the sophists, but never know how to love with men.—Socrates.

The Modern Seven Wonders

Daytona's Incomparable Ocean Beach.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy veranda's looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon her waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid an liquid ready for a cruise upon her beautiful surface Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies, and the wide-spreading branches of the heavy-trunked live-oaks extend their giant arms across this magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the artistic cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the little finishing touches which have brought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage, the entire city becomes a great park

And as for pavements, pavements that look and act like granite,—where else between the eastern and western seas are so many miles in proportion to inhabitants? Till some unheard-of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.

Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "squirrels and flowers, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare "goober" there is a bunny ready to come out and accept your gift. He will sit bolt upright and gnaw into the meat, casting furtive, saucy glances at you meanwhile.

Flowers! Usually fresh and blooming the year 'round. In one yard roses of variagated hues predominate, another has a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes.

The Fastest Autos And The Finest Out.

Here is where world's records for speed are broken with every recurring season. Autos the biggest, the fastest and the finest are on daily parade and the big show is as free as the pure artesian water from the thousand flowing wells. It is a continuous show with constantly shifting scene. You will probably catch the spirit and when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down in your wallet only for coin for the auto and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

The Farmer Gets Even.

"Seems to me a man of your standing in the community ought to drive a better looking horse," critically remarked the Cleveland Plain Dealer's funny man to the old farmer. "I won't trade him for the fastest roadster in the hull country," said Farmer Huckleberry.

"That hoss knows just what to do when he meets an autymobile. He cavorts around an' topples over an' breaks up a dollar's wuth o' buggy shaft and mebbe 50 cents wuth o' harness, and I'll bet I've collected much as 'leben hundred dollars from the autymobile owners. The old hoss is all right."

*Desirable building lots at Silver Beach, near Automobile Club House, for sale at attractive prices. Apply to T. E. Fitzgerald. tf

"Every disease almost has its peculiar odor," said a doctor. "This odor helps us greatly in diagnosis.

"Gout imparts to the skin a smell precisely like whey. Diabetes causes a sweet, honey-like smell. Jaundice occasions a smell of musk. Smallpox has a very strong and hideous smell. It is like burning bones. Measles has a smell as of fresh plucked feathers.

"The fevers have the most distinctive odors. The odor of typhus is ammoniacal; that of intermittent is like fresh brown bread hot from the oven; that of typhus is musty, recalling to the mind old, damp cellars; that of yellow fever is like the washings of a dirty gun barrel.

"So, you see, to speak of a doctor scenting our disease is not to use a mere figure of speech."

Mutton Birds.

During six weeks every autumn the 400 inhabitants of the Australian Furneaux islands make enough money to support themselves in idleness the rest of the year. They do this by catching the very fat young "mutton birds," which are hatched there in such numbers that the flocks when they migrate extend for miles. They furnish food and oil, which is used for lubricating purposes and also as a substitute for cod liver oil.

Making Sure.

Country Cousin—Are you sure I am in the right train? Town Relative (who has had about enough of it)—Well, I have asked seventeen porters and thirty-two passengers, and they all say "Yes," so I think you'd better risk it.—London Telegraph.

If thou continuest to take delight in idle argumentation thou mayest be qualified to combat with the sophists, but never know how to love with men. —Socrates.

VOLUSIA'S SCHOOL STANDING.

Some Facts And Figures of Interest In The Educational World.

STATEMENTS AND COMPARISONS.

* * *

Statistics are misleading unless they are carefully considered, so please note that in the following sometimes it is desirable to be as near the first as possible and sometimes as near the last. Although there is room for much improvement we have to feel proud of our rank and standing as a county.

Last year there were 134,722 pupils enrolled in the public schools of Florida—83,910 white and 50,812 colored. Of these Volusia county enrolled 2,979—1,805 white and 1,174 colored.

Among the counties of the State Volusia county ranks 13th in the number of pupils enrolled, 13th in the number of teachers employed and 13th in the number of schools maintained. This means that we are far above the average in the number of large graded schools maintained and in the number of teachers employed in proportion to the pupils enrolled.

While we are 13th in the number of pupils enrolled we are 11th in the number of pupils above the 7th grade. This shows that we are, in a measure, successful in holding our pupils through the higher grades.

We are 12th in the number of teachers employed but 3rd in the number holding first grade certificates. 2nd in the number of graduates of Normal schools, and 4th in the average experience of our teachers.

There are twenty-four counties in the State that levy a higher assessment for school purposes than we do, yet Volusia county ranks seventh in the aggregate paid for teachers' salaries, eighth in the average monthly salary, ninth in the total expenditure for school purposes, second in the amount expended for school supplies, second in the average length of the school term, and first in the net cash balance at the end of the year.

While Volusia county ranks nineteenth in the number of pupils enrolled it ranks thirteenth in the value of organs and furniture, and seventh in the total value of school property.

Although we rank twenty-second in the number of schools maintained, we rank eighth in the number of visits to the schools paid by the superintendent, and thirty-eighth in the per cent. that the superintendent's salary and traveling expenses are of the total teachers' salaries of the county. We are seventh in the total taxes collected, but twelfth in the administration expenses.

We have twenty special tax districts in this county. While there are eight counties ahead of us in this respect, yet there are eleven counties that have none at all.

BRITISH PRINCES.

Very Different From the King in Exemption From Laws.

So privileged is the king of England in his exemption from any and every law that one would naturally expect his children might be pretty much as they like. But Englishmen have always been very jealous of royal personages, and the fact is that princes enjoy very few privileges indeed. A prince of the royal blood may be fined, like any ordinary mortal, if his motor car exceeds the legal limit of speed.

The Prince of Wales cannot be sued personally for his debts. If the debt is not paid the creditor may take out a summons, but he must summon the treasurer, not the prince. If the case goes against the treasurer the money is paid out of the prince's assets.

No child of the king who is under twenty-five can marry without the king's consent. Supposing, however, a prince over twenty-five desired to marry and the king refused his consent, then the prince could give notice of his intention to the privy council. After that a period have to elapse before the prince could marry the woman of his choice.

A prince has no more the right to educate his own children, for it was long ago held that it was the king has the care and education of his grandchildren, even when their own parents are minors. London Tribune.

VOLUSIA'S SCHOOL STANDING.

Some Facts And Figures of Interest In The Educational World.

STATEMENTS AND COMPARISONS.

Statistics are misleading unless they are carefully considered, so please note that in the following sometimes it is desirable to be as near the first as possible and sometimes as near the last. Although there is room for much improvement we have to feel proud of our rank and standing as a county

Last year there were 134,722 pupils enrolled in the public schools of Florida—83,910 white and 50,812 colored. Of these Volusia county enrolled 2,918—1,805 white and 1,113 colored.

Among the counties of the State Volusia county ranks 19th in the number of pupils enrolled, 13th in the number of teachers employed and 22d in the number of schools maintained. This means that we are far above the average in the number of large graded schools maintained and in the number of teachers employed in proportion to the pupils enrolled.

While we are 19th in the number of pupils enrolled we are 11th in the number of pupils above the 7th grade. This shows that we are, in a measure, successful in holding our pupils through the higher grades.

We are 13th in the number of teachers employed but 3rd in the number holding first grade certificates, 2nd in the number of graduates of Normal schools, and 4th in the average experience of our teachers.

There are twenty-four counties in the State that levy a higher assessment for school purposes than we do, yet Volusia county ranks seventh in the aggregate paid for teachers' salaries, eighth in the average monthly salary, ninth in the total expenditure for school purposes, second in the amount expended for school supplies, second in the average length of the school term, and first in the net cast balance at the end of the year.

While Volusia county ranks nineteenth in the number of pupils enrolled, it ranks thirteenth in the value of apparatus and furniture, and seventh in the total value of school property.

Although we rank twenty-second in the number of schools maintained, we rank eighth in the number of visits to the schools paid by the superintendent, and thirty-eighth in the per cent that the superintendent's salary and traveling expenses are of the total teachers' salaries of the county. We are seventh in the total taxes collected, but twelfth in the administration expenses.

We have twenty special tax districts in this county. While there are eight counties ahead of us in this respect, yet there are eleven counties that have none at all.

TWENTY YEARS FOR MURDER.

(By United Press.)

MEDIA, Ohio, March 12.—Guy Rasor, convicted of the murder of Orie Lee, his sweetheart, was today sentenced to 20 years' imprisonment The prosecution held that the girl was about to become a mother, and Rasor wanted her out of the way.

NEW BOWLING CHAMPIONSHIP

(By United Press.)

PITTSBURG, March, 12—Anthony Shwogler, of Milwaukee, broke the world's record today for two-men team bowling 1304 pins.

Bridge Party at Mrs. Newell's.

Mrs. Florence Newell entertained about twenty of her lady friends Thursday evening at cards. There were five tables and after a delightful time spent in the game of Bridge, in which Mrs A. Hilliard won the first and Mrs. L. O. Smith the second prize, delicious refreshments were served to add to the enjoyment of a very pleasant evening.

A. O. Botts, county superintendent of public instruction, who came over from DeLand Tuesday, returned to that city today. While here Mr. Botts visited the schools at Port Orange, Kingston and Holly Hill.

LOCAL ITEMS.

Sam Null, picture machine operator at the 'Gator theatre, has left for Jacksonville, where he will visit for two weeks with friends and relatives, after which he will make the Southern territory for a Baltimore concern.

**Nurse wanted for two little girls. Call Herrich, Schmidt's Hotel, Daytona.

J. H. Rafftery, district passenger agent of the Georgia Southern & Elorida Railway, with headquarters at Jacksonville, is at The Despland, having arrived in the city yesterday. Mr. Rafftery represents the South Atlantic Limited as well as the Dixie Flyer route.

L. T. Mulkey returned from Smith creek Thursday with the force of men engaged in putting in the draw bridge. The Maxine engine went bad this side of Ormond and they were obliged to pole the boat, and the loaded lighter in tow, from that point to Daytona.

BRITISH PRINCES.

Very Different From the King In Exemption From Laws.

So privileged is the king of England in his exemption from any and every law that one would naturally expect his children might do pretty much as they like. But Englishmen have always been very jealous of royal personages, and the fact is that princes enjoy very few privileges indeed. A prince of the royal blood may be fined, like any ordinary mortal, if his motor car exceeds the legal limit of speed.

The Prince of Wales cannot be sued personally for debt. If the debt is not paid the creditor may take out a summons, but he must summon the treasurer, not the prince. If the case goes against the treasurer the money is paid out of the prince's assets.

No child of the king who is under twenty-five can marry without the king's consent. Supposing, however, a prince over twenty-five desired to marry and the king refused his consent, then the prince could give notice of his intention to the privy council. After that he would have to restrain his patience for a whole year. If during that time either the house of lords or the house of commons disapproved of the marriage it could not take place. But if both houses of parliament were satisfied the prince could marry the woman of his choice.

A prince has not even the right to educate his own children, for it was long ago laid down that the king has the care and education of his grandchildren while they are minors.—London Telegraph.
